March & Rally

Youth leaders of the Global Climate Strike movement, including Nobel Peace Prize nominee Greta Thunberg, have sounded the alarm and request that on Friday, September 20, 2019, people stand with them in solidarity.

This rally and forum in Gualala aims to educate the public about the severity of climate disruption and to promote dialogue about what we can do for our region.

Keeper Tables and Forum

Engage with others. Hear from community leaders how they are dealing with climate change and environmental harm. Learn how to decarbonize through local planning and initiatives and build community resiliency.

“To change an existing paradigm, do not struggle with the problematic model. Create a new model and make the old one obsolete.”

-Buckminster Fuller
